HYGIENE STORES UK EXPANDS CLIENT LIST AGAIN

Birmingham-based Hygiene Stores UK, the specialist division of Hygiene Group supplying cleaning and janitorial equipment, has added another leading name to its already impressive client portfolio.

Its latest new contract is seeing the company supply disposable visitor's coats and rolls of lint-free paper to Siemens' facility at Llanberis in North Wales, where it produces reagent testing kits for the medical industry.

The facility uses around 300 coats per month, while the paper is used to dry off surfaces in the production area as well as for general clean-up of spills.

Sarah Richardson, Procurement Officer for Siemens, explained:

"Hygiene Stores' ability to offer highly competitive pricing alongside continuity of supply and high-quality products were key factors in our decision to award Hygiene Stores this contract."

Simon Peasgood, Business Development Manager for Hygiene Stores UK, added: "The Hygiene Stores business goes from strength to strength based

on our extensive product range and ability to meet the janitorial supply requirements of all types of businesses, regardless of the size or sector in which they operate.”
