## HYGIENE CLEANS UP AT TWENTY

After 20 years in operation the Hygiene Group has grown into one of the largest and most well respected market leaders in the supply of specialist cleaning services to the food, drinks and pharmaceutical industries.

Speaking about the anniversary managing director, Stephen Bailey said:

“Everyone has put a lot of effort into the company since 1983; all the hard work has paid off, as we’ve established ourselves as one of the leading service providers in a niche market.

Photo caption: Staff from the Slough offices gather together to celebrate Hygiene's 20<sup>th</sup> anniversary.

“From one office in Slough, we now operate a nationwide service offering 24 hour emergency response call outs with 12 branches from Carlisle and Peterlee to Thetford and Swindon.”

Hygiene employs over 850 full time staff who are committed to excellence in Food Hygiene. Services have expanded since the early eighties and now include

specialist work such as Silo Cleaning, High Level Cleaning, Kitchen and Food Production Equipment Cleaning.

“Keeping abreast of the latest inventions and technology has helped us to maintain our leading position and we consistently review and trial new ideas to ensure we offer advanced methods of cleaning to our clients.

“Throughout the 20 years we invested heavily in our biggest asset – our staff – and I firmly believe that its thanks to their commitment and enthusiasm that we’re in such a strong position as we celebrate this milestone,” said Mr Bailey.
